SOLUNE HOUSE

Boutique Retreats • Wellness Spaces • Architectural Escapes

Brand Essence

SOLUNE HOUSE is a cinematic wellness universe inspired by softness, silence, filtered sunlight, and emotional architecture. A place where light moves slowly across linen curtains. Where architecture feels feminine, quiet, and restorative. Every space is designed to slow the breath, soften the gaze, and return guests to a sense of stillness they forgot they needed.

Our Philosophy

SOLUNE HOUSE was created around the idea that spaces can gently change the way people feel.

Through natural light, soft textures, quiet architecture, and intentional simplicity, every environment is designed to slow the mind and soften the atmosphere around it.

We believe luxury should feel calm, emotional, and deeply human.

Spaces we create

From boutique hotels and private villas to wellness retreats and slow-living spaces, every SOLUNE environment is designed to feel emotionally calming, timeless, and deeply human.

We focus on atmosphere, light, material harmony, and sensory experience.

Signature Elements

Natural Light
Soft shadows and sunlight designed as part of the experience.

Quiet Materials
Linen, stone, wood, and textures that soften the atmosphere.

Emotional Architecture
Spaces created to slow the mind and calm the body.

Cinematic Stillness
Every environment feels like a memory suspended in time.

Selected Destinations

Inspired by coastlines, islands,
quiet cities, and hidden retreats around the world.

SOLUNE HOUSE imagines spaces
where architecture, nature, and emotion exist in harmony.

Visual Identity

A palette inspired by sunlight, limestone, sea reflections, linen textures, and quiet luxury.
